Fabric & Trim Information

It is the customer's responsibility to determine if their fabric is appropriate for the application specified and that it meets applicable codes and regulations. We recommend that customers inspect their fabrics before sending them to MVT. We do not accept responsibility for overall appearance, defects, flammability, durability, color fastness, behavior, quality, or performance of any COM fabric. Under no circumstances will we assume responsibility for COM shortages, flaws or other such problems. While we make a concerted effort to control COM fabrics, it is not our responsibility to police the receipt of COM's in order to meet delivery deadlines and we assume that customers are aware of any undue delay in the delivery of their COM fabrics.

MVT is not responsible for the misapplication of unmarked fabrics. An upcharge may be warranted for fabrics that we deem difficult to work with. We will contact you in this situation before we proceed with your order. MVT reserves the right to refuse to work with materials that we determine may cause harm to our equipment.
